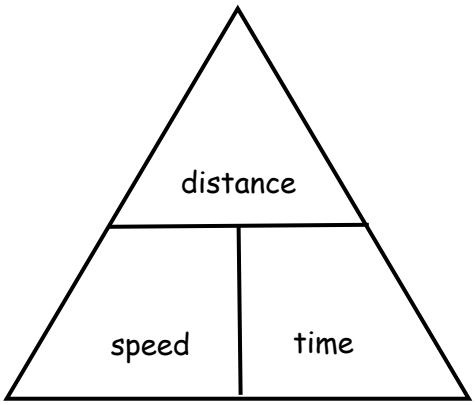
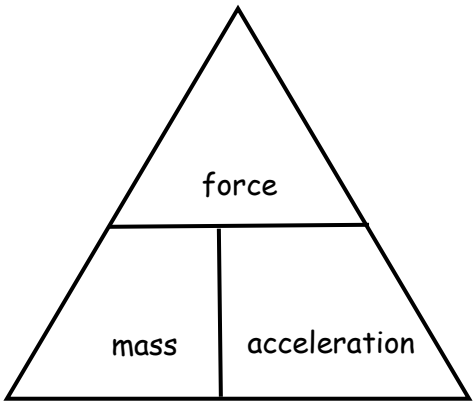
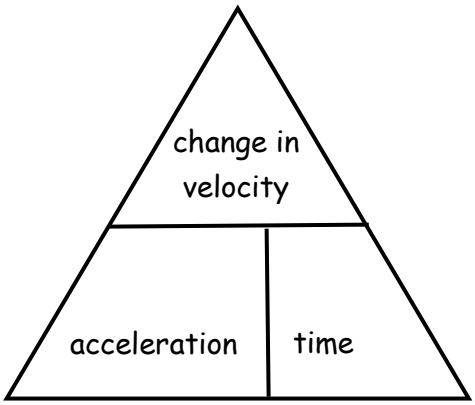
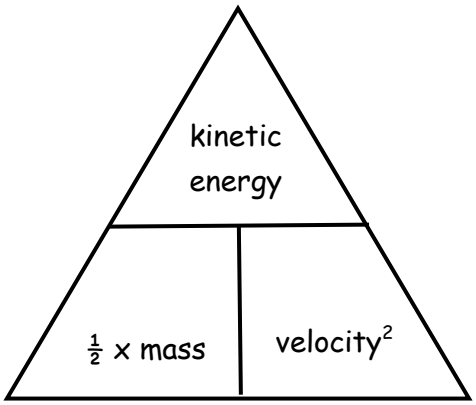
GCSE Physics (Edexcel 9-1 syllabus)

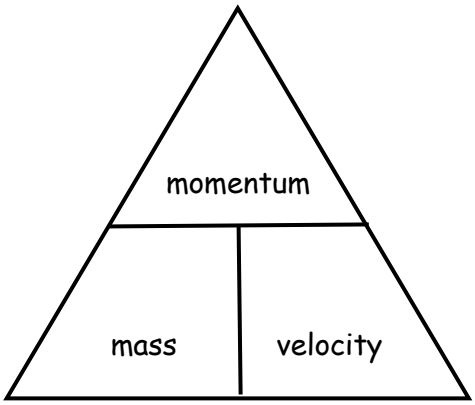
20 "triangle" equations that you need to memorise

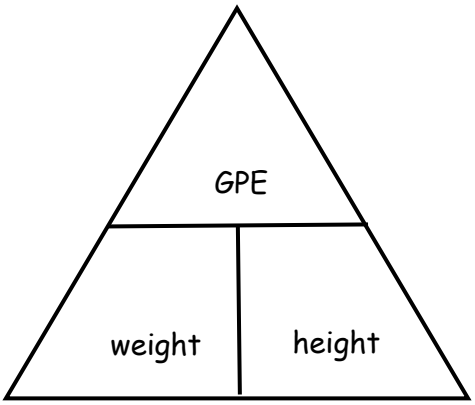


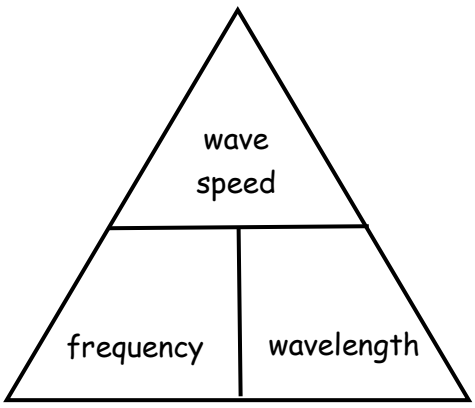




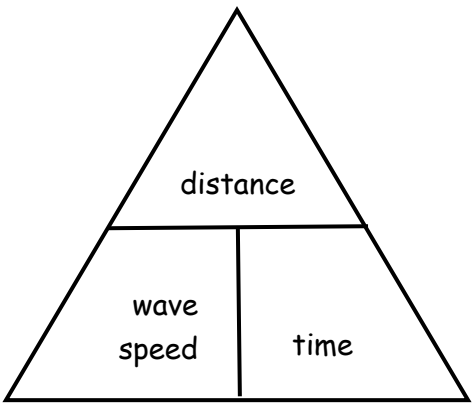




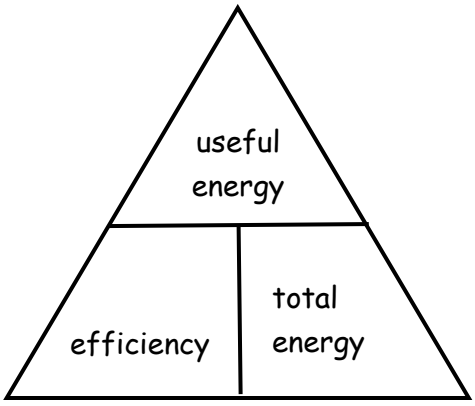




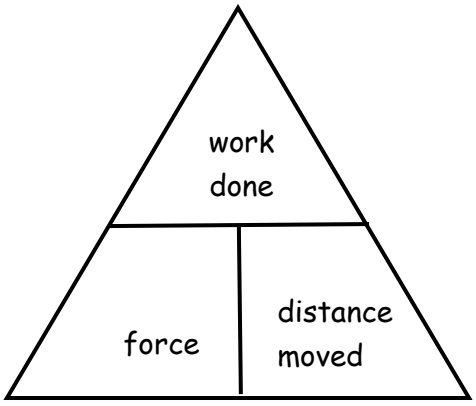
wave speed
frequency
wavelength



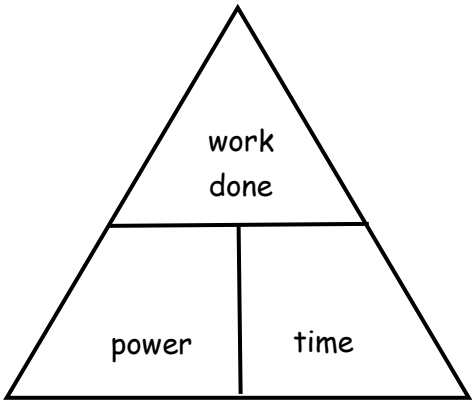
distance
wave speed
time



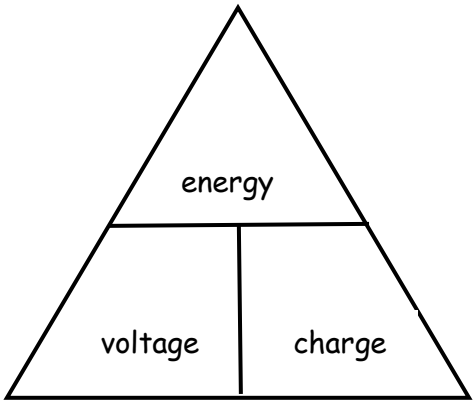
useful energy
efficiency
total energy



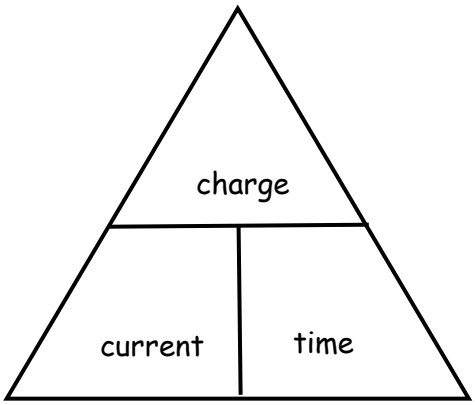
work done
force
distance moved



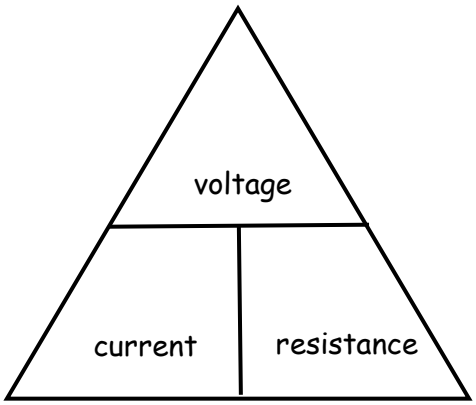
work done
power
time



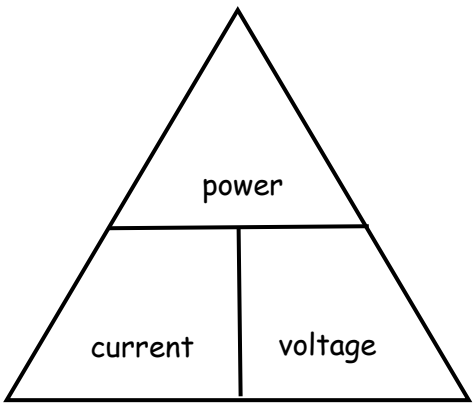
energy
voltage
charge



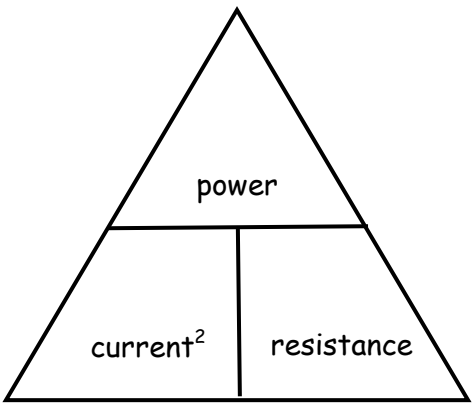
charge
current
time



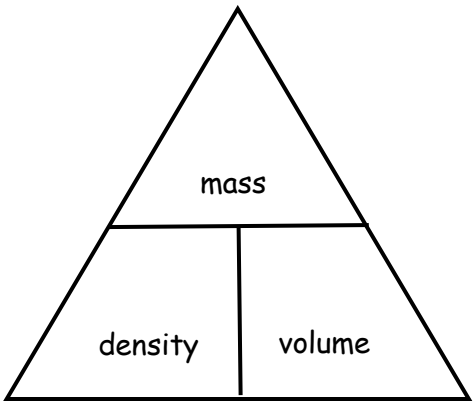
voltage
current
resistance



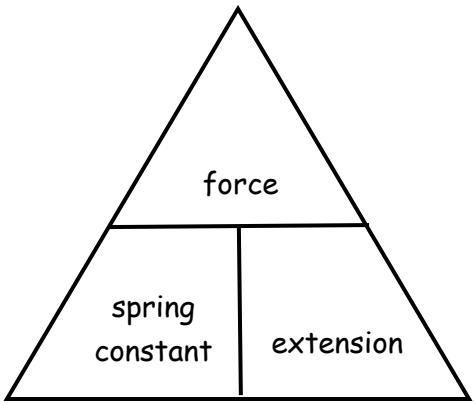
power
current
voltage



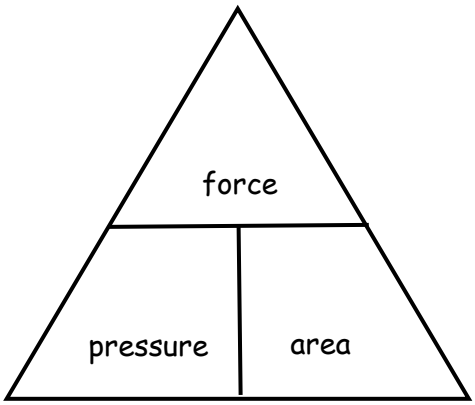
power
current^2
resistance



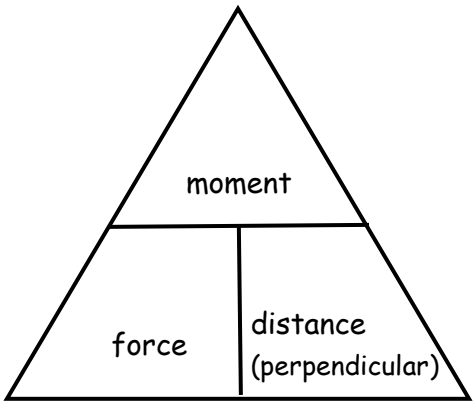
mass
density
volume



force
spring constant
extension



force
pressure
area



moment
force
distance (perpendicular)
